Winter Expansion

Winter was near its end, but just when we thought we were safe, the fallen Elven Prince appeared from the dark forest, marching upon our territories with an enchanted army like no other.

New Monster Abilities

As long as this monster is in play, you can't play the Ocarin music.	Destroy a building when it lands into its zone.	If there are no Dwarfs in its zone, move it one more step closer to the castle.	When it enters play, spawn an extra monster than the limit for the player count.	Spawn a new disaster.
All players lose 1 Gold (even with no dwarfs adjacent to the monster).	All players lose 1 resource as described in the monster card (even with no dwarfs adjacent to the monster).	All players remove 1 dwarf of their choice from the board (even with no dwarfs adjacent to the monster).	Place a spider web on its zone. Moving a Dwarf from a spider web costs you 2 actions.	

* These abilities are from monsters included in the core game of Dwar7s Spring which is required if you wish to play with them in Dwar7s winter.

New Musical Instrument: The Ocarin

During setup, place the new Music Hall on top of the previous one on the game board. Give all players one of each building, the 2 starting Ocarin Cards and shuffle the remaining ocarin cards with the other Hero cards.

Placing a Building: unless otherwise stated, Lumber Camps can only be build in a forest zone; Windmills in fields; Mines on Mines; you can't build in a zone that already has a building.

Producing: Lumber Camps produce wood; Windmills produce food; Mines produce stone.

At the end of the game, each building you have in play, awards you 2 VPs.

LUMBER CAMP

WINDMILL

MINE

New Musical abilities

Pay 3 wood to place a building into a zone you have a dwarf	Produce 1 resource per dwarf of different tribe in a zone you have a building	Pay 2 stone to push back a monster that is in a zone you have a building	Get 1 gold for each of your buildings in play.	Move or place one of your Dwarfs into a zone you have a building.

New Legendary Classes

During setup, all players receive one sage hero card. The Sage allows you to upgrade one of the regular dwarfs on your player board into a Legendary Class at a cost of 2 gold. Replace the dwarf with a Legendary Class of your color. Put the replaced dwarf back in the box. You may have more than one of your Legendary Classes in play. All Legendary Classes are worth 2 VPs at the end of the game.

The Alchemist:

Anytime an alchemist produces a resource, you may choose gold instead.

Baby Dragon:

You ignore any monster abilities from monsters in the same zone as your Baby Dragon. These monsters still affect other players as usual.

Examples:

IN THIS EXAMPLE, THE BLUE PLAYER PLAYED THE MANDOLIN AND THEREFORE WOULD GET 2 STONES FROM MINING. AS THEY HAD AN ALCHEMIST IN ONE OF THE MINES, THEY CHOSE TO GET 2 GOLD INSTEAD.

IN THIS EXAMPLE, THE BLUE PLAYER CAN STILL PLAY THE OCARIN MUSIC, WHILE THE RED PLAYER CAN'T.

IN THIS EXAMPLE, THE BLUE PLAYER PLAYED THE OCARIN AND THEREFORE WILL PRODUCE RESOURCES IN THEIR BUILDINGS THAT HAVE TRIBES PRESENCE.

THERE ARE 2 DIFFERENT DWARF TRIBES ON THE MINE, SO THE BLUE PLAYER WILL PRODUCE 2 STONES.

THERE IS ONE TRIBE PRESENT IN THE LUMBER CAMP, BUT IT'S THE BLUE ALCHEMIST, SO THEY CAN CHOOSE TO PRODUCE 1 GOLD INSTEAD OF 1 WOOD.

Spring Expansion

Riding his mighty Elk, Keadril, the Elven Prince, deserted his kingdom to help hide the monsters deep in the dark forest. Faeries have foretold that he is to be the future king of all enchanted creatures!

** Requires Dwarf's winter to be played in Dwarf's Spring.*

Upgrade one of your dwarfs into Legendary: You may upgrade one of the regular dwarfs in your bastion as a free action by discarding 4 gold from your treasury. Replace the Dwarf with the desired Legendary Class, and return the dwarf to the box. Legendary Classes have special abilities and will score 1 Victory Point (each) at the end of the game. Legendary Classes keep all their original racial traits (for example anything affecting a Dwarf also affects an Alchemist).

The Alchemist:

If your alchemist takes part in a gathering action, you may choose to gather any type of resource instead.

Baby Dragon:

You ignore any monster abilities from monsters in the same wildland as your Baby Dragon. The monster still affects other players as usual.

Examples:

The Alchemist:

IN THIS EXAMPLE, THE BLUE PLAYER WILL REVEAL 3 HERO CARDS: ONE FOR THE ALCHEMIST, ONE FOR THE REGULAR DWARF, AND ONE FOR HAVING A SETTLEMENT. THEY THEN CHOSE TO GATHER 3 GOLD INSTEAD OF 3 WOOD AS IT WAS THEIR ALCHEMIST GATHERING ACTION.

Baby Dragon:

IN THIS EXAMPLE, THE BLUE PLAYER WILL COLLECT 2 FOOD FROM BUILDING THEIR SETTLEMENT BECAUSE THEIR BABY DRAGON ALLOWS THEM TO IGNORE THE WITCH'S ABILITY.

Buildings

During setup, give all players one of each building. Buildings are kept in the players treasury until they are built.

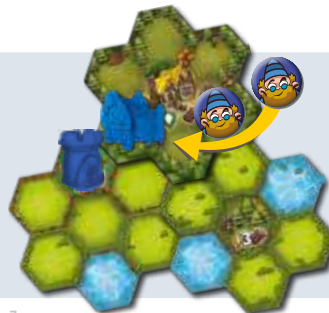

Placing a Building: As a free action, you may spend 4 wood to place a building inside a wildland where you have a dwarf. There cannot be more than 3 buildings inside the same wildland. Lumber Camps may only be build on a forest petal; Windmills on hills; Mines on mines.

Shelter: Buildings count as 2 of your Dwarfs when gathering resources or fighting monsters.

At the end of the game, each of your buildings in play is worth 1 VP.

IN THIS EXAMPLE, AS A FREE ACTION, THE BLUE PLAYER PAYS 4 WOOD TO BUILD HIS LUMBER CAMP IN THE FOREST.

THE BLUE PLAYER STARTS A GATHERING ACTION. THEY WILL DRAW A TOTAL OF 5 CARDS: 2 FOR THEIR LUMBER CAMP, 2 FOR THE DWARFS AND 1 FOR THE OUTPOST.
